

3. Is LC-01 using UHF or VHF? What is the difference?

VHF and UHF are generally defined as follows:

VHF: Very High Frequency; 130MHz~300MHz

UHF: Ultra High Frequency; 300MHz~500MHz

For LC-01, it is using both range; 380MHz~390MHz and 250MHz~260MHz, at the same time to perform fully duplex (talk and listen simultaneously).
